

Test Warning Cleanup

A small scheduling helper removes un-awaited coroutine warnings. The source reports targeted and full test runs, but supplies no command, counts or output.

Retrospective reading view. The unchanged original Markdown is the recommended routine record. Missing test outputs and witness details remain unrecorded; no new experiment was run. Source revision and hash.

ORIGINAL SOURCE SECTION

Session Goals

- 1. Eliminate un-awaited coroutine warnings in pytest runs

ORIGINAL SOURCE SECTION

Work Completed

- Added `_schedule_test_rig` helper to defer coroutine creation until scheduling
- Updated tests to patch `_schedule_test_rig` instead of `asyncio.create_task`
- Re-ran targeted + full test suites: warnings eliminated
